DRASTIC LAW IS PASSED TO CURB SEDITION TALK

Washington, May 7.—Final legislative action was taken today on the sedition bill, giving the government broad new powers to punish disloyal acts and utterances. Adopting a conference report already approved by the senate, the house sent to the president for his signature the measure which has been before congress for weeks, assailed as a menace to free speech and championed as essential to order at home during the war.

The president is expected to sign the bill promptly, and through vigorous enforcement of its provisions officials of the department of justice say they will be able to do much toward checking the wave of mob outbreaks for which unpunished disloyalty and enemy activity is blamed.

Penalties of 20 years' imprisonment or a fine of \$10,000, or both, are provided in the bill for those convicted of uttering or printing disloyal, abusive, profane, scurrilous, contemptuous or abusive language about the United States, or the government, or the form of government, or the flag, and for those who are convicted of favoring Germany or her allies in the present war.

Holding the Line.

Through forty awful days the great battle in France has raged with a fury and a power never equaled in warfare. There have been short breathing periods of comparative quiet, but not for one hour has the battle wholly ceased, and during much the greater part of the time it has been fought with all the force the assaulting power could bring to bear upon its antagonists. For months unceasing preparations had been made for the attack upon a scale of unheard-of magnitude. The purpose was even advertised, and the world given to understand that the end was merely a matter of Germany's choosing. The war lords pretended a confidence which in the light of the past they had no good reason to feel, but they endeavored to impress their own people and their enemies by an attitude of absolute assurance that would inspire

courage on the one side and fear on the other. Apparently they have not yet learned the futility of frightfulness and of vain boasting. Apparently they still rely upon lies at home and upon terror abroad as sources of power that will win victories. They have deceived the Germans, no doubt, but they have not deceived their foes, and instead of frightening them by their threats and their atrocities they have but increased their anger, their strength and their determination.

In these forty days and nights the Germans have done their worst. It is not conceivable that any superior combination of military powers and instruments could be organized and hurled against the Allies. They have gathered the finest of their troops in vast numbers to lead their continuous attacks, they have supported them with all the ordinance that could be assembled, and they have fought with the utmost valor and desperation. But nowhere have they breached the living wall that is the protection of civilization. The line is intact, and except as to the loss of local positions, of some strategical value, it is as strong as it was on the 21st day of March when the assault began. Germany has hurled its scores of picked divisions against this impregnable wall, it has sacrificed hundreds of thousands of men, and it has gained nothing of decisive value. It has pressed its line forward, it is true, but it holds no ground it has not held before in this war, and for every foot it has paid a price far beyond its military worth. The Allies, on the other hand, have husbanded their resources, and while heroically contesting every inch of ground it was considered desirable to hold, it has endeavored to inflict the greatest possible destruction upon the enemy at the least possible cost to its own. There is no reason for fear. The Germans cannot break through. "Il ne passera pas."

Another call has been issued by Provost Marshal Gen. Crowder for additional troops to be sent to Camp between May 25 and June 1. The order is for approximately 235,000 men, and of this number Kentucky is called upon to furnish 6,311. The local board has been notified of the call through the adjutant general's office and while no definite date has been fixed for the men to leave it will be between the dates fixed by General Crowder. The quota for this county has not yet been fixed either, but in a call of this size it means that this county will be called upon to furnish between fifty and seventy-five recruits. In the first call, which was for 150,000 men Calloway furnished twenty-six, but in a second call issued immediately following, Kentucky's quota was called entirely from the eastern part of the state. Should all men to be called from the state in this second increment come from the central and western part of the state it would mean a considerable increase over the figures given above. However, these details will be announced at an early date.

ANOTHER CALL IS ISSUED FOR MEN TO GO INTO CAMP

ter than they, man to man. So they have eagerly learned all the "business" of the war game. They have done this so readily as to cause genuine astonishment among the French and British officers and men. And in the few fights they have had beside each other they have held their own. This fact, taken in connection with the elaborate scale on which preparations have been made by engineers and master mechanics, has inspired their associates. Premier Lloyd George has publicly quoted with approval the tributes the French have paid to the fighting qualities of American soldiers, "first-class fighting material, full of courage and all very keen."

We had expected this, and more. It is when the Americans begin fighting on a large scale, by themselves, that we may expect a show of superiority. The conditions under which they were reared will give them an advantage over almost all other fighting men. Friday 300 of them made a raid in the Lorraine sector, protected solely by their own artillery, and penetrated all three German lines and completely wiped out the German works. Similar independent actions will follow and the Americans will "put on a few new curves," as they cannot help doing, for they have been trained to initiative all their lives, even as other soldiers have been trained to routine. Then will come the name which shall blot "Sammy" out of the book of our recollection.

Glory! Glory! Taint Yaller.

Since his son has been called to the army under the draft, a Hickman county farmer has worried so much over it that his hair, which was of a light color, turned red, and now it is turning gray or white around the edges. The boy was called to the army about two months ago, and three weeks ago this farmer's daughter married and he feels that his home is almost broken up.—Mayfield Messenger.

McELRATH SUCCEEDS IN EVADING GENERAL SERVICE

Attorneys J. H. Coleman, this city, and Jos. R. Grogan, Paducah, have returned home from Louisville and Frankfort where they spent the past week in the interest of Thomas Lafayette McElrath, a registrant from this city and who was certified to the commanding officer at Camp Taylor last week for general military service and who refused to leave with the first increment of the second army. The local board was notified by wire Thursday morning by Judge Advocate Major Reeves, Camp Taylor, that McElrath be held for limited service as advised by the District Medical Advisory Board.

What further action will be taken by the local board is not now stated. However, it is generally agreed that this shameful result shall not pass unchallenged.

Major Hale 82 Years Old.

Major Henry S. Hale passed his eighty-second milestone Saturday and celebrated the occasion by taking a two mile hike in the afternoon. The Major admits that he has aged a bit in the last two years, because he says that a few years ago he walked four and five miles for exercise. Fifty-one of the Major's eighty-two years have been spent in Mayfield. He came in from Lynnville in '66 to fill the office of sheriff.

Major Hale is still active in the everyday affairs of Mayfield. He is president of the First National Bank and is a leader in the Christian church. Mayfield Times.

CROWDER WANTS TO KNOW WHY SO FEW IN CLASS 1

Washington, May 5.—Maj. Gen. Enoch H. Crowder, provost marshal general, intends to make a nation-wide investigation to determine why so many draft districts have placed so comparatively few men in class 1. The returns, which at last are complete, reveal the fact that there are approximately only 2,000,000 men of this classification in the country, and his object is to find out why there are not more. The original expectation was that there would be at least 3,000,000 of class 1.

Members of the staff of the provost marshal general consequently will make a survey of the returns from individual districts, and where are only a few men in class 1, will send out representatives to review the questionnaires and other data in the hands of the different boards. There are numerous instances where the number of men in class 1 are out of all proportion to the total of registration.

Every effort was made at the time of the classification to have all boards adopt the same standards in considering the cases. To this end Maj. Gen. Crowder prepared the most minute instructions which were sent to the boards to be used as a guide. He kept the boards advised by telegraph, in addition, when changes were necessary or when new and unexpected points came up and were decided.

Despite this, however, there was a wide variation in the methods of the different boards, the result of which has been that in some sections of the country men were placed in class 1 and in others, when the same circumstances existed, they were placed in deferred classes. All cases were reviewed, of course, by the district boards, but even then it was impossible to get any complete, definite standard. The rules varied almost as much as the individuals who composed the boards.

There are in the returns many cases where the men in class 1 are amazingly few. In the flagrant cases, however, it may be that the districts are those in which there are munitions factories or plants engaged in other war work, where there are industrial exemptions, or rather deferred classifications. But every instance will be investigated thoroughly, and if it is found that men who have been placed in deferred classes really should be in class 1 they will be transferred.

THIRD LIBERTY LOAN WILL GO OVER FOUR BILLIONS.

Washington, D. C., May 7.—Analysis of Liberty Loan reports showed that probably 17,600,000 persons bought bonds in the campaign which closed last Saturday at midnight—7,000,000 more than in the second loan and 12,500,000 more than in the first. Latest tabulations showed \$3,316,628,250 reported subscriptions but the treasury now believes the actual total, which may run to \$4,000,000,000 will not be definitely known until May 13, four days after individual banks are required to report to federal reserve banks. "Whatever the money total," said a treasury statement last night, "the loan just closed probably is the most successful ever floated by any nation."

The marvelous distribution of the Third Liberty Loan indicates that one out of every six persons in the United States may have participated in this loan.

Banks' resources, it was pointed out, have been drawn on comparatively little to make the loan a success and the prospects for future loans are brighter as a consequence. An added reason for jubilation among treasury officials is the indication that the government bond buying habit is becoming stronger among people of small means and that they probably will invest even more heavily in the fourth loan next fall.

Secretary McAdoo in a statement thanking the nation for its support of the loan said the widespread distribution of bonds "is particularly gratifying," and added: "This is the soundest form of national war finance—the distribution of the loan among the people themselves."

REV. TAYLOR RESIGNS AS PASTOR BAPTIST CHURCH

Rev. H. B. Taylor, pastor of the Baptist church of this city, tendered his resignation to the congregation last Sunday at the morning service hour. Action was deferred until the night service, at which time the matter was discussed and a motion, introduced by Dr. W. H. Graves, that the resignation be rejected and a vote of confidence be extended to the pastor was unanimously adopted by the members present and voting.

Wednesday night at the prayer meeting hour the resignation of the pastor was again brought before the church and after consideration was accepted. Rev. Taylor was not present at the meeting, having left Murray previously for Georgetown, Ky., where his family has been located during the winter. The vote on the resignation stood 26 opposed and 47 for accepting.

The resignation of Rev. Taylor comes after a pastorate of more than twenty years, and follows in the wake of wide criticism of the position taken by the reverend gentleman toward the war in which the nation is now engaged. Rev. Taylor has not issued any statement regarding his future intentions.

Public Sale.

Inasmuch as I expect to move to Florida in a few months I shall, on Saturday, May 18, offer to the highest bidder my house and lot at 108 South 9th street, together with all my household goods. Everything is new and considering the advanced prices on furniture and all household fixtures it will be a rare opportunity to do some good buying. Many have asked us to sell privately, but we have refused to receive private bids on anything except the house and lot and piano; should you be interested in either we would be glad to confer with you privately. We shall, however, be glad to show anyone through our house before the day of sale who would likely be interested in buying on that day.—T. B. Thompson.

No "Yaller" in His System.

Wickliffe, Ky., May 4.—He had told his wife good-bye and was ready to go; so when the exemption board failed to call the name of Todd Beasley, of Fulton, at the train, he protested. The board told him it had excused him because he was married, but Beasley replied he had given up his business, said farewell to his wife and expected to go. He was taken.

NAT RYAN, Chairman "OLD PEP AND YINEGAR"

THE THIRD LIBERTY LOAN

Under the guiding hand of Chairman Nat Ryan, ably assisted by a field force of patriotic citizens from every section of the county, the campaign for the sale of government bonds of the third Liberty loan closed last Saturday night at midnight. Monday tabulated returns showed that the citizens of this county had purchased approximately \$215,000 worth of the bonds and that they represented approximately 1,750 purchasers. The result is most gratifying—splendid evidence of the ardent patriotism of the people and especially is the result a source of pleasure to the chairman, who deserted business interests for the three weeks during the campaign in order to render his government a patriotic service. The quota fixed for the county was \$91,500 and to be able to arouse the people to such an extent that they purchased more than \$200,000 is real red blooded American evidence that the labor was not spent in vain. Of the total amount the ladies' auxiliary forces sold \$31,000, and to them is ac-

corded no slight share of the success of the undertaking. Here's hats off to Chairman Ryan, and the Ledger nominates him and hears a thousand seconds, for permanent chairman of old Calloway.

An article appearing on the eighth page of the Ledger last week under the caption of "Must Fight to Save Christianity," was from the pen of Mr. S. Wolten Forgy, Elkton, Ky., and was published in the Todd County Times. The name was omitted by error. It was a splendid article and contained much food for thought.

TRUTH TRIUMPHS

Murray Citizens Testify for the Public Benefit.

A truthful statement of a Murray citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Murray citizen tells of Doan's Kidney Pills:

"Could you demand more convincing proof of merit?" R. S. Miller, prop. of repair shop, Price St., Murray, says: "Some five years ago my kidneys troubled me. They acted too frequently at times and the secretions burned in passage. My back pained me occasionally and caused me considerable annoyance. Doan's Kidney Pills helped me and I have not had to use any kidney medicine since."

Assassin Who Caused War Dies

London, May 8.—Gavdio Prinzip, the assassin of Archduke Francis Ferdinand, heir apparent to the Austro-Hungarian throne, and his wife, at Sarajevo, Bosnia, died yesterday in a fortress near Prague, of tuberculosis, telegraphs the correspondent at The Hague of the Exchange Telegraph Company.

Prinzip shot to death the Austrian archduke and his wife while they were on a visit to the Bosnian capital on June 28, 1914, resulting in Austrian demands on Serbia which brought on the great war.

Prinzip, who was a student, was found guilty and sentenced to twenty years' imprisonment. Prinzip fired two explosive bullets from a revolver at the Austro-Hungarian archduke, the first being, the archduke's mortgagated wife, in the abdomen, and the second taking effect in the neck of the archduke. Both bullets caused death within a short time.

Earlier in the day Medelj Gabrinovic, a typist of Serbian nationality, had thrown a bomb which the archduke ward off with his arm so that it exploded some distance from his automobile. The bomb injured six persons. Gabrinovic was sentenced to twenty years' imprisonment. Four other conspirators were sentenced to death by hanging, one to life imprisonment, and one in twenty years in jail.

Quick Training for New Troops

A Roof for Every Building

Made to Best Protect That Character of Building

Never in the history of the roofing business has quality in roofing been so important as now. At present prices no man can afford to buy carelessly, or be indifferent as to results. Nor can any man afford to put off roofing that is necessary.

The roof to buy is that which best protects and lasts the longest. Any other kind is wasteful.

The McHenry-Millhouse business has been built upon the sound principle that a roof best serves its purpose when made in a particular way for a particular building.

To that end it has studied buildings, the kind of roof they need and require and made a special product for each.

It is this specializing that assures you the most of durability in any McHenry-Millhouse product you buy.

Tell us the kind of building you have to protect and we will see that you get the right kind of roofing for this character of building.

Another call has been issued by Provost Marshal Gen. Crowder for additional troops to be sent to Camp between May 25 and June 1. The local board has been notified of the call through the adjutant general's office and while no definite date has been fixed for the men to leave it will be between the dates fixed by General Crowder. The quota for this county has not yet been fixed either, but in a call of this size it means that this county will be called upon to furnish between fifty and seventy-five recruits. In the first call, which was for 150,000 men Calloway furnished twenty-six, but in a second call issued immediately following Kentucky's quota was called entirely from the eastern part of the state. Should all men to be called from the state in this second increment come from the central and western part of the state it would mean a considerable increase over the figures given above. However, these details will be announced at an early date.

This call will exhaust Class 1 of all men not engaged in agricultural pursuits and to fill the quota the local board will be required to call men who are farming. Class 1 does not contain more than 250 names at present. If it is the purpose of the government to raise two million additional troops within the next nine or ten months it will mean not less than 500 men will be sent from this county before the first of next year, which would entirely exhaust Classes 1, 2, 3 and go down into Class 4. Another call for troops will be made early in June.

Ten boys left here last Monday on the evening train for Ft. Benjamin Harrison, near Indianapolis, Ind. Every man answered when his name was called—wasn't a yaller leg in the crowd. A fine bunch of splendid boys and men who will render a full measure of service to the nation. A good crowd was at the station to see the boys leave and to wish them the best of luck. Those who left were: Homer Hamptoa Hart, Elmer Homer Coleman, Elmer Tilghman Hixon, Virgil Seaton, Jas. E. Rhodes, Chalmers Chastain, Wm. W. Brinn, Bill Garland, Hubert Horton Bynum, Aubra Boyd.

American Soldiers in Action.

There may have been something of courtesy in the early praise the British and French lavished on the American soldiers. But there is no perfunctory tone in recent comment. The Americans have been praised for their adaptability, for steady courage, for eagerness to learn and aptness in learning and for the thoroughness of their work. Although unused to discipline and filled with the spirit of independence and self-reliance, they have accommodated themselves to rigid discipline, merely because it is "part of the game." They obey orders with alacrity and show every courtesy to officers because they are officers, just as they would respect the ceremony of a lodge and approach the illustrious potentate with the genuflections "the rules might require, without once imagining that he was a bit better than they, man to man. So they have eagerly learned all the "business" of the war game. They have done this so readily as to cause genuine astonishment among the French and British officers and men. And in the few fights they have had beside each other they have held their own. This fact, taken in connection with the elaborate scale on which preparations have been made by engineers and master mechanics, has inspired their associates. Premier Lloyd George has publicly quoted with approval the tributes the French have paid to the fighting qualities of American soldiers, "first-class fighting material, full of courage and all very keen."

We had expected this, and more. It is when the Americans begin fighting on a large scale, by themselves, that we may expect a show of superiority. The conditions under which they were reared will give them an advantage over almost all other fighting men. Friday 300 of them made a raid in the Lorraine sector, protected solely by their own artillery, and penetrated all three German lines and completely wiped out the German works. Similar independent actions will follow and the Americans will "put on a few new curves," as they cannot help doing, for they have been trained to initiative all their lives, even as other soldiers have been trained to routine. Then will come the name which shall blot "Sammy" out of the book of our recollection.

Glory! Glory! Taint Yaller.

Since his son has been called to the army under the draft, a Hickman county farmer has worried so much over it that his hair, which was of a light color, turned red, and now it is turning gray or white around the edges. The boy was called to the army about two months ago, and three weeks ago this farmer's daughter married and he feels that his home is almost broken up.—Mayfield Messenger.

McELRATH SUCCEEDS IN EVADING GENERAL SERVICE

Attorneys J. H. Coleman, this city, and Jos. R. Grogan, Paducah, have returned home from Louisville and Frankfort where they spent the past week in the interest of Thomas Lafayette McElrath, a registrant from this city and who was certified to the commanding officer at Camp Taylor last week for general military service and who refused to leave with the first increment of the second army. The local board was notified by wire Thursday morning by Judge Advocate Major Reeves, Camp Taylor, that McElrath be held for limited service as advised by the District Medical Advisory Board.

What further action will be taken by the local board is not now stated. However, it is generally agreed that this shameful result shall not pass unchallenged.

Major Hale 82 Years Old.

Major Henry S. Hale passed his eighty-second milestone Saturday and celebrated the occasion by taking a two mile hike in the afternoon. The Major admits that he has aged a bit in the last two years, because he says that a few years ago he walked four and five miles for exercise. Fifty-one of the Major's eighty-two years have been spent in Mayfield. He came in from Lynnville in '66 to fill the office of sheriff. Major Hale is still active in the everyday affairs of Mayfield. He is president of the First National Bank and is a leader in the Christian church. Mayfield Times.

CROWDER WANTS TO KNOW WHY SO FEW IN CLASS 1

Washington, May 5—Maj. Gen. Enoch H. Crowder, provost marshal general, intends to make a nation-wide investigation to determine why so many draft districts have placed so comparatively few men in class 1. The returns, which at last are complete, reveal the fact that there are approximately only 2,000,000 men of this classification in the country, and his object is to find out why there are not more. The original expectation was that there would be at least 3,000,000 of class 1.

Members of the staff of the provost marshal general consequently will make a survey of the returns from individual districts, and where are only a few men in class 1, will send out representatives to review the questionnaires and other data in the hands of the different boards. There are numerous instances where the number of men in class 1 are out of all proportion to the total of registration.

Every effort was made at the time of the classification to have all boards adopt the same standards in considering the cases. To this end Maj. Gen. Crowder prepared the most minute instructions which were sent to the boards to be used as a guide. He kept the boards advised by telegraph, in addition, when changes were necessary or when new and unexpected points came up and were decided.

Despite this, however, there was a wide variation in the methods of the different boards, the result of which has been that in some sections of the country men were placed in class 1 and in others, when the same circumstances existed, they were placed in deferred classes. All cases were reviewed, of course, by the district boards, but even then it was impossible to get any complete, definite standard. The rules varied almost as much as the individuals who composed the boards.

There are in the returns many cases where the men in class 1 are amazingly few. In the flagrant cases, however, it may be that the districts are those in which there are munitions factories or plants engaged in other war work, where there are industrial exemptions, or rather deferred classifications. But every instance will be investigated thoroughly, and if it is found that men who have been placed in deferred classes really should be in class 1 they will be transferred.

THIRD LIBERTY LOAN WILL GO OVER FOUR BILLIONS.

Washington, D. C., May 7.—Analysis of Liberty Loan reports showed that probably 17,000,000 persons bought bonds in the campaign which closed last Saturday at midnight—7,000,000 more than in the second loan and 12,500,000 more than in the first. Latest tabulations showed \$3,316,628,250 reported subscriptions but the treasury now believes the actual total, which may run to \$4,000,000,000 will not be definitely known until May 13, four days after individual banks are required to report to federal reserve banks. "Whatever the money total," said a treasury statement last night, "the loan just closed probably is the most successful ever floated by any nation."

The marvelous distribution of the Third Liberty Loan indicates that one out of every six persons in the United States may have participated in this loan.

Banks' resources, it was pointed out, have been drawn on comparatively little to make the loan a success and the prospects for future loans are brighter as a consequence. An added reason for jubilation among treasury officials is the indication that the government bond buying habit is becoming stronger among people of small means and that they probably will invest even more heavily in the fourth loan next fall.

Secretary McAdoo in a statement thanking the nation for its support of the loan said the widespread distribution of bonds "is particularly gratifying," and added: "This is the soundest form of national war finance—the distribution of the loan among the people themselves."

REV. TAYLOR RESIGNS AS PASTOR BAPTIST CHURCH

Rev. H. B. Taylor, pastor of the Baptist church of this city, tendered his resignation to the congregation last Sunday at the morning service hour. Action was deferred until the night service, at which time the matter was discussed and a motion, introduced by Dr. W. H. Graves, that the resignation be rejected and a vote of confidence be extended to the pastor was unanimously adopted by the members present and voting.

Wednesday night at the prayer meeting hour the resignation of the pastor was again brought before the church and after consideration was accepted. Rev. Taylor was not present at the meeting, having left Murray previously for Georgetown, Ky., where his family has been located during the winter. The vote on the resignation stood 26 opposed and 47 for accepting.

The resignation of Rev. Taylor comes after a pastorate of more than twenty years, and follows in the wake of wide criticism of the position taken by the reverend gentleman toward the war in which the nation is now engaged. Rev. Taylor has not issued any statement regarding his future intentions.

Public Sale.

Inasmuch as I expect to move to Florida in a few months I shall, on Saturday, May 18, offer to the highest bidder my house and lot at 108 South 9th street, together with all my household goods. Everything is new and considering the advanced prices on furniture and all household fixtures it will be a rare opportunity to do some good buying. Many have asked us to sell privately, but we have refused to receive private bids on anything except the house and lot and piano; should you be interested in either we would be glad to confer with you privately. We shall, however, be glad to show anyone through our house before the day of sale who would likely be interested in buying on that day.—T. B. Thompson.

No "Yaller" in His System.

Wickliffe, Ky., May 4—He had told his wife good-bye and was ready to go; so when the exemption board failed to call the name of Todd Beasley, of Fulton, at the train, he protested. The board told him it had excused him because he was married, but Beasley replied he had given up his business, said farewell to his wife and expected to go. He was taken.

NAT RYAN, Chairman "OLD PEP AND VINEGAR"

THE THIRD LIBERTY LOAN

Under the guiding hand of Chairman Nat Ryan, ably assisted by a field force of patriotic citizens from every section of the county, the campaign for the sale of government bonds of the third Liberty loan closed last Saturday night at midnight. Monday tabulated returns showed that the citizens of this county had purchased approximately \$215,000 worth of the bonds and that they represented approximately 1,750 purchasers. The result is most gratifying—splendid evidence of the aroused patriotism of the people—and especially is the result a source of pleasure to the chairman, who deserted business interests for the three weeks during the campaign in order to render his government a patriotic service. The quota fixed for the county was \$91,500 and to be able to arouse the people to such an extent that they purchased more than \$200,000 is real red blooded American evidence that the labor was not spent in vain. Of the total amount the ladies' auxiliary forces sold \$31,000, and to them is ac-

corded no slight share of the success of the undertaking. Here's hats off to Chairman Ryan, and the Ledger nominates him and hears a thousand seconds, for permanent chairman of old Calloway.

An article appearing on the eighth page of the Ledger last week under the caption of "Must Fight to Save Christianity," was from the pen of Mr. S. Wolten Forgy, Elkton, Ky., and was published in the Todd County Times. The name was omitted by error. It was a splendid article and contained much food for thought.

TRUTH TRIUMPHS

Murray Citizens Testify for the Public Benefit.

A truthful statement of a Murray citizen, given in his own words, should convince the most skeptical about the merits of Doan's Kidney Pills. If you suffer from backache, nervousness, urinary disorders or any form of kidney ills, use a tested kidney medicine.

A Murray citizen tells of Doan's Kidney Pills.

Could you demand more convincing proof of merit?

R. S. Miller, prop. of repair shop, Price St., Murray, says: "Some five years ago my kidneys troubled me. They acted too frequently at times and the secretions burned in passage. My back pained me occasionally and caused me considerable annoyance. Doan's Kidney Pills helped me and I have not had to use any kidney medicine since."

Assassin Who Caused War Dies

London, May 8.—Gavdio Prinzip, the assassin of Archduke Francis Ferdinand, heir apparent to the Austro-Hungarian throne, and his wife, at Sarajevo, Bosnia, died yesterday in a fortress near Prague, of tuberculosis, telegraphs the correspondent at The Hague of the Exchange Telegraph Company.

Prinzip shot to death the Austrian archduke and his wife while they were on a visit to the Bosnian capital on June 28, 1914, resulting in Austrian demands on Serbia which brought on the great war.

Prinzip, who was a student, was found guilty and sentenced to twenty years' imprisonment. Prinzip fired two explosive bullets from a revolver at the Austro-Hungarian archduke, the first being the archduke's morganatic wife, in the abdomen, and the second taking effect in the neck of the archduke. Both bullets caused death within a short time.

Earlier in the day Medeljo Gabrinovic, a typist of Serbian nationality, had thrown a bomb which the archduke warded off with his arm so that it exploded some distance from his automobile. The bomb injured six persons. Gabrinovic was sentenced to twenty years' imprisonment. Four other conspirators were sentenced to death by hanging, one to life imprisonment, and one in twenty years in jail.

A Roof for Every Building

Made to Best Protect That Character of Building

Never in the history of the roofing business has quality in roofing been so important as now. At present prices no man can afford to buy carelessly, or be indifferent as to results. Nor can any man afford to put off roofing that is necessary.

The roof to buy is that which best protects and lasts the longest. Any other kind is wasteful.

The McHenry-Millhouse business has been built upon the sound principle that a roof best serves its purpose when made in a particular way for a particular building.

To that end it has studied buildings, the kind of roof they need and require and made a special product for each.

It is this specializing that assures you the most of durability in any McHenry-Millhouse product you buy.

Tell us the kind of building you have to protect and we will see that you get the right kind of roofing for this character of building.

Somewhere in France, April 10. O. J. Jennings, Murray, Ky.

Dear Friend: As I have a few spare moments I will write you a few lines to let you know that I am in good health and have begun to feel like a real soldier after several weeks in France.

How is everything in general in old Kentucky? Looking prosperous though I trust. Spring is over here with us at last, but it's still cool and damp, as it rains almost every day, but we have rain coats and rubber boots so "we should worry."

I am stationed near a nice little town, so I get off almost every night a little while to go up town. The towns of course are not as busy nor as entertaining as your towns in America, but they are pretty nice at that.

Well, I guess I had better close for this time. Bon-well, from Sergt Oscar E. Windsor.

P. S. Please give this letter to some of my other friends and tell them I would like to hear from any who wish to write. My address is Detach. Q. M. C., A. P. O. 726, A. E. F.

Basil Jones and Charlie Dixon, Camp Shelby, Miss., 7th Co., 113th Ammunition Train, were in the county the past week the guests of homefolks.

Mail addressed to the American expeditionary forces in France should have the word "American" written on it and spelled in full so that in the address the destination will read "American E. F." according to a request made by the postoffice authorities. This request is deemed necessary in order to distinguish American mail from that addressed to expeditionary forces of other countries.

Orders directed Harry Sled to report to Fort Sam Houston, Texas, on the 25th of this month were received here Wednesday by his father, W. T. Sled,

who has forwarded the orders to his son at Sheffield, Ala., where he has been working on the government nitrate plant. Harry enlisted and was accepted for service in the aviation corps some three months ago and ordered home to await call for service.

Mr. Holt has been located in Tacoma, Wash., for the past eight months and his family have been making their home in that city. He finished a course in the officers' training camp and was commissioned a second lieutenant in heavy artillery and last week was ordered to report to Charleston, S. C., for duty.

Prof. F. E. McReynolds, former principal of the Murray high school, has been commissioned a first lieutenant in the aviation corps. He finished a course in the officers' training camp at Columbus, O., recently and has been ordered to Portland, Ore., for service. Lieut. McReynolds has been located at Newbern, Tenn., the past several years. His wife is a daughter of Rev. J. M. Pickens, former pastor of the Methodist church here.

Lieut. Shirley Clayton, signal corps, Camp Shelby, Miss., spent last Sunday in the city the guest of his father, Robt. Clayton. He was enroute to Owensboro, Ky., to attend federal court as a witness. To find a finer specimen of physical manhood than Lieut. Clayton it would be necessary to fine-tooth comb more than one regiment. And with it all he is one of the most splendid young men ever sent out of this county.

M. H. S. Junior Reception

On Tuesday evening, May 3, the Senior class of the Murray High School was most pleasantly entertained by the Junior class. As has been the custom for many years the Juniors of the M. H. S. bid the Seniors an affectionate farewell by giving a reception in their honor. The reception this year, so the present Senior class declares, was the best ever given by any Junior class.

Everything—games, music, decorations and refreshments, showed good taste, skill and economy. Nothing elaborate but everything as nice as could be. The Senior colors, blue and old gold, and the class flowers, forget-me-nots, were carried out in detail. Many useful and entertaining games and contests were played. Y. M. C. A. on the Battle Front.

In their fight against the Kaiser, American soldiers boys under shell fire in France—are being given all possible comforts and assistance, according to an announcement just received here from the National War Work Council of the Y. M. C. A. At the present time there are more than 250 American Y. M. C. A. secretaries under shell fire. These men have been with Pershing's troops from the time they landed on foreign soil.

A total of \$5,000,000 is being expended monthly by the Army Y. M. C. A. in its work for the American troops at home and abroad. There are 2,500 Y. M. C. A. workers in France and England and 3,000 in American camps.

Because of the increasing need for men in this service and the force necessary to operate the entire canteen system in France, efforts are being made to enroll at least 1,000 more business and professional men of high standing who are willing to go to France for every kind of Y. M. C. A. service before July 1.

It is estimated that 8,000,000 feet of film are being exhibited weekly to the soldiers at home and abroad. A recent shipment of athletic equipment for the troops in France consisted of 79,680 baseballs, 19,000 bats, 10,000 gloves and mitts, boxing gloves, volley balls, and various other kinds of apparatus for promoting the play spirit among the troops in their leisure hours.

The Y. M. C. A. has established a chain of huts and dugouts along the front lines occupied by American troops. "Over there" and is meeting the needs of the Sammys as they take their places alongside their Allies. The Y. M. C. A. huts on the Russian front have been demolished by German guns and the 150 secretaries there have retired before the advance of the Huns and are now established in Siberia awaiting an opportunity to return to Russia.

Somewhere in France, April 10. O. J. Jennings, Murray, Ky.

Dear Friend: As I have a few spare moments I will write you a few lines to let you know that I am in good health and have begun to feel like a real soldier after several weeks in France.

How is everything in general in old Kentucky? Looking prosperous though I trust. Spring is over here with us at last, but it's still cool and damp, as it rains almost every day, but we have rain coats and rubber boots so "we should worry."

I am stationed near a nice little town, so I get off almost every night a little while to go up town. The towns of course are not as busy nor as entertaining as your towns in America, but they are pretty nice at that.

Well, I guess I had better close for this time. Bon-well, from Sergt. Oscar E. Windsor.

P. S. Please give this letter to some of my other friends and tell them I would like to hear from any who wish to write. My address is Detach. Q. M. C., A. P. O. 726, A. E. F.

Mrs. O. Lamar Holt and little son arrived here Tuesday afternoon to remain for sometime with Mr. Holt's mother, Mrs. Joe T. Farley. Mr. Holt has been located in Tacoma, Wash., for the past eight months and his family have been making their home in that city. Prof. F. E. McReynolds, former principal of the Murray high school, has been commissioned a first lieutenant in the aviation corps. He finished a course in the officers' training camp at Columbus, O., recently and has been ordered to Portland, Ore., for service. Lieut. McReynolds has been located at Newbern, Tenn., the past several years. His wife is a daughter of Rev. J. M. Pickens, former pastor of the Methodist church here.

Lieut. Shirley Clayton, signal corps, Camp Shelby, Miss., spent last Sunday in the city the guest of his father, Robt. Clayton. He was enroute to Owensboro, Ky., to attend federal court as a witness. To find a finer specimen of physical manhood than Lieut. Clayton it would be necessary to fine-tooth comb more than one regiment. And with it all he is one of the most splendid young men ever sent out of this county.

M. H. S. Junior Reception

On Tuesday evening, May 3, the Senior class of the Murray High School was most pleasantly entertained by the Junior class. As has been the custom for many years the Juniors of the M. H. S. bid the Seniors an affectionate farewell by giving a reception in their honor. The reception this year, so the present Senior class declares, was the best ever given by any Junior class.

Everything—games, music, decorations and refreshments, showed good taste, skill and economy. Nothing elaborate but everything as nice as could be. The Senior colors, blue and old gold, and the class flowers, forget-me-nots, were carried out in detail. Many useful and entertaining games and contests were played. The Victrola furnished most delightful music, and last, but not at all least, were the refreshments in blue and old gold cream.
